A Great Book for your Baby or Your Beginning ReaderVon Ein KundeWe bought this book for our daughter the year before she started Kindergarten, in hopes that it would help to get her started with reading. And it indeed turned out to be one of the first books she was able to read alone. She is in first grade now, and her reading level has progressed well beyond Biscuit. But we have found renewed life for the book with our one year old baby. He loves Biscuit. It is his

favorite bedtime story, and he never tires of hearing it. The delightful story of the little yellow dog who finds excuse after excuse not to go to bed will enchant your children, from infancy to elementary school.0 von 0 Kunden fanden die folgende Rezension hilfreich. For the tired parent's bedtime kit!Von Ein Kunde"Biscuit" fascinates my two and a half year old daughter. It's her favorite bedtime story, and she says the words from memory along with me as I read to her. An important plus is that it's very short - just what a tired parent needs after a hard day's work to satisfy his/her kid!0 von 0 Kunden fanden die folgende Rezension hilfreich. Biscuit is a hit at my house!Von Ein KundeMy two year-old cannot get enough of this book. It has just the right amount of text per page to hold her interest and enough repetition on the theme (getting Biscuit to go to bed) that she gets really tickled when she can tell me what comes next for Biscuit on each page.
