Black Magic seems to be Shirow's prototype for developing the world of Appleased. Appleased fans will probably notice some parallels/links/continuations in this book.As an early work, the art is very similar to the first Appleased book in that there is less detailed art work that

appear in his later works (most significant of which is his latest Ghost in the Shell).

Kurzbeschreibung Today, the planet Venus is a literal hell of furnace-like temperatures and dense, poisonous atmosphere. But millions of years in its past, Venus teemed with life and with a civilization far advanced to our own. The Nemesis supercomputer controls government functions, with bioroid "executors" created to carry out the system's utopian edicts. But trouble brews even in paradise, as different executors vie for control of Nemesis, forcing the governing system to secretly create Duna Typhon, a super-bioroid "sleeper," raised among the human populace, ready to use her awesome powers should Nemesis be co-opted to turn paradise into paradise lost. From the imagination of Ghost in the Shell creator Shirow Masamune comes his first published series, Black Magic, a sweeping science-fiction epic that introduces many of the themes and ideas that influence all of Shirow's work. * Now available in right-to-left reading format!
