them and we love listening to him read.0 von 0 Kunden fanden die folgende Rezension hilfreich. This is a great series! Von Ein Kunde Finally beginning books for children who are really just beginning. My three-year-old has known her letter sounds for over a year but suddenly began reading with her introduction to Bob books this month. She is gaining confidence and is surprised that she can read like her older cousins. Her six-year-old cousin is also excited about reading since she borrowed our Bob books two months ago. One word of caution, clever children will quickly memorize the story line that goes with the simple pictures and may tell you the story without reading the words. It was helpful for us to break the words down letter by letter on index cards before attempting our first Bob book.0 von 0 Kunden fanden die folgende Rezension hilfreich. You can't go wrong with BOB Books! Von Ein Kunde My daughter began reading with the BOB Books last year and now as a kindergartener, is working her way through the second series, More BOB Books. Maslen has done an excellent job in developing a series of books that build on one another so that each book is a little more difficult than the previous one. The first page in each book reviews which new sounds will be added so that the child may be review them before they begin the book. My daughter has developed a real sense of pride in her ability to read through these books. You really can't go wrong with BOB Books.

Kurzbeschreibung This is Bob Books bestselling first reader, introduced more than 35 years ago and used by millions of children. If your child knows the alphabet, Bob Books Set 1 is the book to start him or her on the path to reading. Many early readers contain words that are too difficult for a child who has just learned the sounds of the alphabet. Not these books! Using only the letters M, A, T and S, children can read their first book. New letters are added gradually, until all letters of the alphabet have been introduced (except Q). Short vowels and three-letter words in simple sentences help kids build reading confidence. They love the stories and funny pictures, and can't wait to read them to everybody they know.
