Von Nikolina S. Uzicanin : Bosnian-English English-Bosnian Dictionary (Hippocrene Concise Dictionary)
before purchasing it in order to gage whether or not it would be worth my time, and all praised Bosnian-English

Von Ein KundeWhile this dictionary is brief, it provides a good, pocket-sized introduction to the Bosnian language. Another good (and small) example is the Langenscheidt "Croatian" dictionary (which is no different than previous "Serbo-Croatian" editions). The Susan Kroll "Bosnian" dictionary is one to avoid. Beyond these, one would do best by investing in a two-volume dictionary...there's not much in the medium (not too big, not too expensive range). 0 von 0 Kunden fanden die folgende Rezension hilfreich. Incomplete.....intermediate. Von Ein KundeThis book has an english word followed by a transliteration in Bosnian then from one to four words that SHOULD be translations. BUT...you find the words are derivatives of the word but take on a different meaning the word. For instance, "sit" will cover "sit on the table", "I will sit here", and then "Sit down". (This is an example as I was talking to a Bosnian interpreter and she quickly corrected me on just one of the variations i.e. sjesti=Sit down. But there is NO way of telling what the context of the word is. There are alot of commone words missing that you would expect any other kind of dictionary to contain. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Bosnian-English English-Bosnian Dictionary Von Ein KundeAlbeit that there are not many dictionaries on the beautiful languages of Bosnian. This book is one of a very few resourses available on the language. It is a good reference, but not the last word on translation.
