Von Cliff Jacobson : Boundary Waters Canoe Camping, 2nd (Regional Paddling Series): Canoe Camping with Style before purchasing it in order to gage whether or not it would be worth my time, and all praised Boundary Waters Canoe Camping, 2nd (Regional Paddling Series): Canoe Camping with Style:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. An Interesting PerspectiveVon james e princeReading the other reviews submitted about this book, one would think that it is either the best or the worst book ever written about the special requirements of canoe camping in the boundary waters. Well, it is neither. I take a 14-plus day trip to the Quetico every other summer, and have travelled many of the most challenging and remote routes of the park. The value of this book is that it offers one set of ideas as to the best way to go about one's business in the wilderness. These ideas are not definitive, and I flatly ignore many of them. That said, I have also adopted some of the ideas found in the book, or at least reconsidered my tried and true methods based on some of the author's recommendations. If you're looking for a book to stimulate you to think about different ways of doing things in the woods-- this is a good choice. If you're a beginner, this isn't a bad place to start, but it would be a bad place to stop. There are as many different ways to go about travelling in canoe country as there are lakes in the Quetico. Almost all have something to offer. None are perfect. This book is worth reading as part of the exploration and learning process.0 von 0 Kunden fanden die folgende Rezension hilfreich. A Great Book Filled With Excellent Tips on Canoe Camping!Von Barbara BuscemiBefore setting out on our first trip to the BWCA five years ago, I bought Cliff's book. I read it cover to cover and found it packed with practical information that helped make my first trip (and all my subsequent trips) completely enjoyable. I've re-read the book every year since. I've followed Cliff's tips, and he's never let me down. Yes, put the groundcloth inside your tent, and you'll never have a wet sleeping bag. Use a tumpline when portaging it relieves a the stress of carrying a heavy pack. Don't hang your food in a tree, unless you want a bear to find it! Follow Cliff's tips. I've heard him speak on the subject of canoe camping several times...and he brings many years of valuable experience. I highly recommend reading this book before taking your next canoe/camping trip!0 von 0 Kunden fanden die folgende Rezension hilfreich. Don't waste your money on this book.Von Ein KundeI wanted to give this book zero stars, but the reviewing system would only let me go down to one star. Mr. Jacobson sounds like a salesman for outdoor equipment companies throughout the whole book. I have been camping for over 30 years and he didn't tell me anything helpful that I didn't learn to do, or not do, after my first camping trip. Many of his ideas and suggestions are well into the ridiculous range. Anybody that followed what he says in his book word for word would spend a lot of money on unnecessary expensive equipment camping equipment and most probably have the worst time of their life camping. He thus would turn a happy camper into a person that would never camp again.

KurzbeschreibungThe Boundary Waters Canoe Area (BWCA), located in northeastern Minnesota, is a legendary wilderness destination for canoeists from around the world. Longtime guide and canoe authority Cliff Jacobson explains the best and safest ways of planning and enjoying a BWCA journey. Includes maps, illustrations, and information on obtaining permits, packing the right supplies, practicing low-impact camping techniques, honing paddling skills, traveling with children, and dealing with hazards on land and water.
