Von Annie Hughes : Breaking Free: Learning to Fly (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Breaking Free: Learning to Fly (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. This left me puffy-eyed and giggling... emotional rollercoaster ahead!Von ink.eaters book blogPhew... deep breaths, dear self, deep breaths - here's the tissues.I hate to love Annie's writing, because I love to hate all the things it does to me - Annie Hughes definitely has a gift for writing in way that will make your insides feel a million shades of messed up, that will leave you an emotional mess.Her books will make you feel emotionally drained; they will make you angry,

and they will be proof to you that words can hurt you - that a story is as much of a weapon as a knife. Her books will, however, also give you butterflies; they will make you fall in love, explore friendships, and they will make you laugh your heart out. Both "Breaking Free: Una Familia Segura", as well as "Breaking Free: Learning to Fly", are novels that will touch your heart and soul - and you better stock up on tissues, chocolate and ice cream before starting either. As I pointed out in my review of "Breaking Free: Una Familia Segura", part one in the series, Annie's writing is very authentic, and makes it extremely easy to believe that the narrator is a girl in her teenage years. All throughout both novels, the writing stays in character and the flow of the story never gets disrupted, so you never even once doubt the protagonist's credibility - which makes it impossible not to sympathize with her, and her feelings automatically become yours, making this series the emotional rollercoaster that it is. In the beginning, "Breaking Free: Learning to Fly" held a little too much teenage drama for me. There were times at which I found myself thinking 'Jeez, this has more drama than a Spanish telenovela', but then I thought back to my own time at an American high school and I had to realize that while it might be a tad bit exaggerated for the sake of the story and its development, there *are* teenagers whose life seems to be composed of nothing but drama, so it was a kink I am more than willing to overlook. All in all, this is a read I can't give any less than five stars to. When the writing connects you so deeply to the characters, and when the novel makes you both cry your eyes out and laugh at the top of your lungs, you just know it's an all-round perfect read!*** I received an ARC from the author in exchange for an honest review! ***

Kurzbeschreibung Anna Porter knows better than most how cruel life can be. After finally facing the horrific tortures of her childhood, it's time for her to try and embrace her happily ever after. The next chapter of her life brings new friendships, new love and new challenges for Anna. Yet, while trying to overcome her fears and let go of the memories which plague her, the little girl she was makes it difficult to forget what happened. Is her past really behind her? Can Anna finally learn to fly? Kurzbeschreibung Anna Porter knows better than most how cruel life can be.
