Von Glenn Damato : **Breaking Seas: An overweight, middle-aged computer nerd buys his first boat, quits his job, and sails off to adventure (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Breaking Seas: An overweight, middle-aged computer nerd buys his first boat, quits his job, and sails off to adventure (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Sehr
amsant und ehrlichVon Karin DivensNehmen Sie einen Computer-Nerd, der noch nie seinen Fu auf ein Segelschiff
gesetzt hat, mixen Sie dann eine gehrige Portion Selbstkritik und Humor dazu - und Sie haben 'Breaking Seas'.Eine
sehr unterhaltsame Dokumentation ber ein Abenteuer in der heutigen Zeit.Damato lsst uns teilhaben an seinem Traum,
die Welt zu umsegeln.Allerdings leider nur auf Englisch erhltlich.0 von 0 Kunden fanden die folgende Rezension
hilfreich. excellent readVon maverick2uLikeable main character, was expecting the author to put a bit more humor
into this book, but even so there were lessons to be learned and like ever in sailing, there's always interesting people to
meet.

KurzbeschreibungFROM THE KIRKUS REVIEW: "As a writer, Damato makes his rehabilitation of the craft
surprisingly interesting. . . his pithy prose keeps the story speeding along." Do you have a dream you must pursue, but
everyone says its unrealistic? Or that youre not qualified? Too old, too out of shape? Or you dont have the right
experience? Glenn Damato was a forty-one year old software instructor who sought to exceed the bounds of his
comfortable but humdrum existence. He embarked on an adventure for which he was miserably unprepared. Why did
he do this? How did he answer the ancient human question: how do we jump-start growth in our lives? We become
something we were not. The something Damato strived to become was neither easy nor simple: an ocean sailing
skipper. Overweight and without boating experience of any kind, he decided to pursue his lifelong dream of sailing
around the world on his own vessel.Reckless? Dangerous? Idiotic? Call it what you will, Damato was determined to
make the voyage a reality despite the obstacles.Suddenly without the familiar security of his previous life, Damato was
forced to conquer his anxieties while at the same time surviving the hazards and challenges of offshore sailing. As his
experience and confidence mounts, he discovers he has indeed undergone a personal transformation one quite different
than he originally hoped, and in some ways worthier than he imagined. Breaking Seas is a tale of ocean voyaging, but
its not just about sailing: the all-encompassing themes are rejection and disappointment and our common human quest
to get the most out of life despite being born into an imperfect universe.Part sailing adventure, part philosophical
pilgrimage, Breaking Seas is for everyone whos ever wanted to embark on an enterprise of some kind despite not
meeting societys expected qualifications. This is a story about our desire to be elsewhere, reborn and enhanced,
because here and now are not enough," says Damato. "But dont expect a sugar-coated fairy tale with just what you
want to hear. I promise you an honest story truthfully told.KurzbeschreibungFROM THE KIRKUS REVIEW: "As a
