Der beste Reisefhrer den ich je hatteVon Christiane BreyerDieser Reisefhrer ist am Besten auf dem i-Pad zu benutzen. Man kommt z.B. durch einen Klick auf die Webseite des empfohlenen Restaurants oder kann sich die Lokation durch Anklicken auf der Karte ansehen. Genial

KurzbeschreibungSquint a little into the sun and Bristol could be San Francisco. OK, its not next to the ocean, but its hills, artists, musicians and vaguely lefty, anti-corporate vibe do have something in common with Americas most radical city. Bristols most famous contemporary artist, Banksy, sets the tone, his renegade social commentary and graffiti decorating various bits of the city centre. But its above all the more chilled, relaxed approach to life here that gives it most in common with Americas West Coast. That and the fact that the natives wouldnt dream of living anywhere else.Bristol is not on the ocean but its still very much a waterfront city, the various tributaries of the Avon weaving into the centre and forming the port that made its fortune. The docks have long gone these days all the commerce is on the outskirts of the city, in and around the port of Avonmouth but like so many old British ports theyve been regenerated into a network of artsy warehouses, thriving retail and exhibition spaces and groovy cafs and restaurants. Its here that Bristols cooler-than-thou ethos is at its most contemporary, and where the city really comes alive during the summer months, packed with walkers and cyclists, picnickers and revellers.Cool Places aims to celebrate the glorious diversity of the UK, promoting the very best places to visit, sleep, eat, drink, shop and much more. We particularly love the independent businesses that make the UK unique, from the tiniest BB to the grandest boutique hotel, as well as the extraordinary British landscape and its amazing sights and attractions.
