**Von Rex Applegate, Michael Janich : Bullseyes Don't Shoot Back** before purchasing it in order to gage whether or not it would be worth my time, and all praised Bullseyes Don't Shoot Back:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Straight, no-nonsense practical adviceVon Andrew LimskThis book by two noted personalities in self-defense circles gives lots

of practical information on practice of using firearms. Inside, you will find discussions covering topics like techniques, tactics, and training. Due to the deadly seriousness of the subject matter, I appreciate the concise, no-nonsense style of writing and the practical advice presented in the book. The photos and illustrations are clear and add to the usefulness of the book. While I still think Massad Ayoob's 'In the Gravest Extreme' and 'The Truth About Self protection' are the best books on this subject, this book does a fine job as well.

Kurzbeschreibung Learn why point shooting is the most practical technique for aiming and shooting a handgun in a real gunfight. This instructional guide teaches you how and when to use point shooting, compares it to two-handed sighted fire and tells how a major police training facility is teaching point shooting with stunning results.
