A while back, I began following a free newsletter with excellent advice on drawing, and it all started with the things you need to get started. Naturally, I had to have the eBook once it was out. These easy to understand instructions by talented art teacher Deborah Mendis helped me to set up my drawing corner. I will continue on this journey. I might never be able to draw my own cover-art but I'm happier with the results I'm getting. So, if you're just starting out and don't know what to get and what you will need, get this book. It'll put you on the right path.
