Von Richard J. Light : By Design: Planning Research on Higher Education before purchasing it in order to gage whether or not it would be worth my time, and all praised By Design: Planning Research on Higher Education:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Lange gesucht - schnell bekommenVon G. KurrleGenau dieses Buch war fr mein Studium vorgeschrieben. Aber erst als ich die ISBN-Nummer hatte, fand ich es bei den gebrauchten Bchern. Danach war der Anbieter super schnell mit dem

Versand.

Kurzbeschreibung Do students who work longer and harder learn more in college? Does joining a fraternity with a more academic flavor enhance a student's academic performance? When are the results from an innovation that is tried on one campus applicable to other campuses? How many students and faculty members must participate in a research project before findings are valid? Do students learn best when they study alone or in small groups? These are just some more than fifty examples that Richard Light Judith Singer and John Willett explore in *By Design*, a lively nontechnical sourcebook for learning about colleges and universities. These authors believe that careful design of research on college effectiveness is the single most important step toward producing useful and valid findings. In that spirit, *By Design* is a pathbreaking textbook of modern research methods that both practitioners and students will find useful.
