inspiring story of triumph over child abuse Von Ein Kunde A true story that reads like fiction, "By Hook or by Crook"

tells a compelling, inspiring story of two children who survived the trauma of child abuse. I particularly liked the upbeat quality of the book which shows how the author and her sister triumphed over the terrible conditions of their childhood. The book kept me in constant suspense, as the children went from one unhappy situation to another.

**Kurzbeschreibung**This true adventure story is based on five years of the author's and her sister's childhood. Veronica, a seven-year-old worry wart, and Suzanne, her ten-year-old rambunctious sister, are cast upon kin, then into boarding school in wild and soul-stirring lands. They are set on this stormy course by their newly-widowed father after he marries a woman who does not want to raise the young girls. When the father's and stepmother's castaway plan fails, a series of harsh and sometimes comical confrontations ensue between the children and parents. Away in West Africa these girls who are without allies have to contend with a gaslight routine of abuse. They cope by using their childish resourcefulness as a means of defense. **By Hook or by Crook** is a passionate and gripping non-fiction story that reveals the shocking truth behind the notion of blood is thicker than water. **Kurzbeschreibung**This true adventure story is based on five years of the author's and her sister's childhood. Thank you .com for giving me the opportunity to share my story with a multitude of potential readers. This true adventure story surviving child abuse was based on five years of my sister's and my childhood. I was a seven-year-old-worry wart and my sister was a ten-year-old rambunctious tomboy. We were cast upon kin, then into boarding school in wild and soul-stirring lands by our newly-widowed father, after he married a woman who did not want to raise us. When our father's and stepmother's castaway plan failed, a series of harsh and sometimes comical confrontations ensued between them and us. Without allies in West Africa, we had to use our childish resourcefulness to protect ourselves. Throughout the adventure, I tried to shed light on one of those characteristics that tend to contribute to an abusive environment. I hope to meet you in chapter one.
