KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Realistischer KrimiVon Walter AueDer Autor ist ein profunder Kenner der Szene. Das hat sich nach einer Ingeren Diskussion mit ihm besttigt.Das Buch ist interessant und spannend geschrieben. Ich wrde es jedermann mit

naturwissenschaftlichem Hintergrund in Richtung Biotech empfehlen.

Kurzbeschreibung Extreme competition in the Biotech Drug Discovery and Internet Drug Sales worlds brings out the best and the worst in altruistic and ambitious men. The scientists, physicians, and businessmen in this suspenseful story stretch and break the bounds of morality as they chase their dreams in the disparate locations of New Jersey, Kuala Lumpur, and Malaysian Borneo. Their actions and motives are dominated by Campanilismo the Italian idea that everything important in life occurs in the area from which you can see the bell tower of your town.
