Von Christopher Priest : Captain America and The Falcon Vol. 2: Brothers and Keepers (Captain America the Falcon) before purchasing it in order to gage whether or not it would be worth my time, and all praised Captain America and The Falcon Vol. 2: Brothers and Keepers (Captain America the Falcon):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Can Cap

survive the cruel rules of new contemporary, dirty, urban spy wars? Von Hadourien68 Priest sows the seeds he planted in the first volume here, mercifully sparing us most of the meddling derived of the latest Marvel Universe crossover (at the time), *Avengers Disassembled*. Soon we discover what is it really that Cap and Falcon brought back from that drug cartel's lab and why the US Navy's splinter group that was helping them really wants it. Cap is in deep in a dirty war, light years away from the black and white stark contrast morality he represents. Is he a relic of the past? Is the Falcon leaving him to team up with the Anti-Cap because of the Scarlet Witch's meddling, or because he finally got tired of never being able to live up to Cap's unattainable standards? This is the background lot of a series that unfolds into a TV drama, while keeping up the pyrotechnics and flamboyant fantasy you expect of a superhero comic. So MODOK (Mental Organism Designed Only for Killing) is now able to transmit and replicate himself everywhere like an e-mail and the Hulk is unwittingly used as the means of a suicide attempt by a poor guy trapped in a hideous murderous body. People apparently die and stand up again in a few pages. Ain't it a doozy? And all the while you realise Cap is the one who's in out of his depth, lost in spy wars that defy his simple views and trying to find his way in them, while that Falcon gets sucked in and their historic partnership suffers the hardest trial. From the point of view of the art, overall there is an improvement from Bart Sears's chaotic layouts in favour of some more straightforward art. Andrea Di Vito does a competent first issue, followed by a beautiful run by the highly underrated Joe Bennett, before a single issue awfully drawn by Greg Tocchini and two absolutely average, boring issues by Dan Jurgens. Keeping this all together is Priest's masterful storytelling, still not obscured by the rotating artists and still as challenging as ever: It's not easy to follow all the changes in time and space and subplots, but it is ultimately extremely rewarding, as it all comes together and surprises and twists abound, with the only minor gripes of a possibly rushed ending (because of the book's cancellation) and Priest's annoying preaching tone he takes on when he has his characters fight much more with words than fists. But these are minor complaints, because in a story so packed with twists and turns and themes, it's pretty much unavoidable. Enjoy!

Kurzbeschreibung Collects Captain America The Falcon (2004) #8-14. Haunted by his personal failures, Captain America comes to suspect that he has been under psychological attack from the rogue Navy Intelligence unit that created the so-called "Anti-Cap" Super Sailor when he discovers a direct link between this shadow group and the deadly killing machine M.O.D.O.K. But are they running M.O.D.O.K., or is M.O.D.O.K. running them? To find out, Cap has no choice but to turn to the only person who actually knows: the Anti-Cap himself! Meanwhile, the Falcon has gone on the offensive, shutting down the Rivas drug cartel. But there's a line between heroism and vigilantism, and Robbie Robertson fears the Falcon has crossed it and may never find his way back.
