Von Chris Yost, Cullen Bunn : Carnage: Minimum Carnage before purchasing it in order to gage whether or not it would be worth my time, and all praised Carnage: Minimum Carnage:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Much slaughter and a tiny gemVon BorisHaving discovered the Scarlet Spider series as a good read lately I nevertheless hesitated to buy this Trade. I never liked Carnage and I never liked Venom in any of his impersonations. And I do not like Marvel's ideas of making every established supporting character (this time Flash Thompson) super powered.I

decided buying it being a completist and wanting #12 of Scarlet Spider anyway because the preview made me think this to be a very good standalone issue. Well, I can tell you it is, and this issue alone is worth the price. The rest is more complicated. Like often in series crossovers the styles of writers and artists do not really harmonize. The Trade collects Minimum Carnage Alpha and Omega, Venom #26-27 and Scarlet Spider #10-12, the writing chores being with Cullen Bunn and Chris Yost, pencils rendered by Khoi Pham, Declan Shalvey, Lan Medina and Reilly Brown. It is a rather violent story (nothing else to be expected with Carnage) with a lot of subplots: Venom losing control of the symbiote, a rather confusing Microverse story with a lot of characters I was not familiar with and Kaine's relation to Houston. The title is a reference to the notorious 90s crossover "Maximum Carnage" and the fact that the Microverse is involved. As I said #12 of Scarlet Spider is a gem. It has all that makes this series so good: a splendid supporting character cast, humor, and the character centered theme what it makes up to be a hero. All in all: not unconditionally recommended, but you certainly can spend your money in a worse way although the price is high compared to other paperbacks of similar content.

Kurzbeschreibung Collects Minimum Carnage: Alpha #1; Scarlet Spider #10-12, Venom (2011) #26-27, Minimum Carnage: Omega #1. Carnage is back ... and bigger ain't necessarily better! Scarlet Spider and Venom collide as the hunt for Carnage begins, taking both heroes to a place you'll never believe: the Microverse! Cletus Kasady has found a whole new world to terrorize -- and, stranded on this alien planet, Scarlet Spider and Venom must work together to defeat him!
