**Von David Henry Sterry : Chicken: Love for Sale on the Streets of Hollywood** before purchasing it in order to gage whether or not it would be worth my time, and all praised Chicken: Love for Sale on the Streets of Hollywood:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. An unexpectantly interesting readVon JanaI was recommended this book without any hint of its content and thus, I was in for a surprise.For a book being about a lot of (kinky) sex, you'd be hard pressed to find anything erotic about it which I

appreciate. Reading about the various acts makes you uncomfortable but in a good way. You shouldn't truly enjoy this but rather marvel at this dark display of human nature. Still Sterry manages to embody his tellings with humanity. When he shows sympathy to those who abuse him, it's more than the reader is capable at the moment. Instead of painting a pure black and white picture with a clear role association, this is one grey mess of reciprocative abusals. Sterry's style has been lauded much in this book, to which I have to say that it wasn't my cup of tea. While it undoubtedly worked for this setting, it didn't quite capture me or made this an easy read. Some phrases are quite repetitive. I do understand why he chose to write it like that, but it annoyed me a little while reading. One thing that I really find commendable of Sterry's style of writing, is his ability to deliver gut-punching final sentences (and rarely an opening sentences). Whenever you start to grow accustomed to what's happening, there will be a sentence that - bang - makes you feel all over again and I think that is a great gift. In conclusion, it's probably not a book I will read again, but nevertheless it is an important book to have been written, raw and brave. 0 von 0 Kunden fanden die folgende Rezension hilfreich. loved it Von Annmarie Martin Couldn't put it down. Funny, touching, so honest. Sex work, 17 year old hormones, the need to belong, loneliness and love, sex and violence.

Kurzbeschreibung Be it spring cleaning in a see-through apron while two wealthy women have sex or performing with 'Tinker Bell' while 'Peter Pan' whips her, the life of a teenage prostitute in Beverly Hills was never dull. Often dark, sometimes hilarious, but never dull. Arriving in LA to attend college, but desperate for money, Sterry met a pimp who established him as a male prostitute serving a wild variety of well-off women (and occasionally men). This is his unflinching account of the twisted Wonderland of post-Sixties excess he encountered: peppered with frank descriptions of the work of a 'sex technician'. Pressestimmen \* Even as confessional memoirs go, David Sterry's Chicken stands out from the rest. Alternately farcical, grotesque, brutal and sad. The Bookseller \* Sordid, painful and often hilarious. Guardian \* Sterry writes with comic brio ... he's honed a vibrant outrageous writing style and turned out this studiously wild souvenir of a chequered past. New York Times \* Unflinching and perceptive without being mawkish, and often very funny. Independent on Sunday Kurzbeschreibung Be it spring cleaning in a see-through apron while two wealthy women have sex or performing with 'Tinker Bell' while 'Peter Pan' whips her, the life of a teenage prostitute in Beverly Hills was never dull.
