Von Christopher Golden : Hellboy: The Bones of Giants Illustrated Novel before purchasing it in order to gage whether or not it would be worth my time, and all praised Hellboy: The Bones of Giants Illustrated Novel:

KurzbeschreibungOn the frozen shores of Sweden, lightning strikes from a clear sky. The skeleton of a huge man is

revealed, its fingers clutched around the handle of an iron hammer. No one who comes to see this marvel from Norse mythology can lift it no one but Hellboy, who lifts the hammer just in time for lightning to strike again, welding it to his hand and leading him towards a bizarre series of visions and encounters..deHellboy creator Mike Mignola wanted to take his comic book creation, the world's greatest paranormal investigator, into different territory. So he hooked up with Christopher Golden, author of *Of Saints and Shadows* to write a prose novel featuring Hellboy. The result is this 208-page story about a team of archeologists who head toward the Great Sand Sea near Libya to exhume evidence of a missing army of 50,000 men that disappeared in 525 B.C. When the archeologists go missing, the Bureau for Paranormal Research and Defense sends Hellboy to investigate. This edition features 68 black and white illustrations by Mignola.PressestimmenOttakar's *Outland Magazine* Issue 31, Autumn 2004 : "Rather like an X'-File' investigating the 'X-files', the lantern chinned, wisecracking Hellboy is one of the most endearing heroes to have emerged in comics for a long time, coming across as fresh, inventive, and, above all, highly entertaining."
