Hello, My Name Is Scrambled Eggs Von Ein Kunde Do you like books about young people meeting other people from other countries? Reading Jamie Gilson Hello, My Name Is Scrambled Eggs will help you do just that. The main character,

Harvey, and his family had to bring a family from another country in their home. The family that had to live with Harvey and his family were a family from Vietnam. He was so happy to have someone of his own age living with him. Harvey had to bring him to his school, and there the boy would have to go to school everyday. The boy becomes a good friend with Harvey. Harvey would help the boy speak better English. What I enjoyed about the book was when Harvey would teach the boy about English on the computer. Another part of the book that I enjoyed was when Harvey started to become better friends with the boy and his family. I think someone should read this book if someone was interested in seeing how it is like to have someone from another country living with him or her and what they were going through. I also believe that if someone was to bring someone into his or her home, that person should participate in the family's beliefs. The person should also participate in activities that the family enjoys. Harvey helped the boy very much to understand the English language. The boy would also participate in the activities that the Harvey's family had done with him. The boy liked where he lived as well as Harvey having a new friend living with him. I would also let someone from another country live with my family and I do understand what it would be like to live in a different place.

Kurzbeschreibung When his folks host a Vietnamese family that has come to settle in their town, Harvey enjoys Americanizing twelve-year-old Tuan. Kurzbeschreibung When his folks host a Vietnamese family that has come to settle in their town, Harvey enjoys Americanizing twelve-year-old Tuan. Autorenkommentar A Vietnamese woman suggested the book's setting. Before starting this novel, I filled pages of notebooks with stories told to me by Vietnamese refugees. One woman, who had been here for several years, said that I shouldn't assemble my characters in Chicago, as I had planned to, but in a small town. She had come straight from Vietnam to a farming community just outside Lincoln, Nebraska, and, while she felt the culture shock had been enormous, she had learned English quickly and had loved becoming a part of middle America. So, I set my story in Pittsfield, Illinois, a town of two thousand, where I had lived when I was twelve years old. As I describe in my book, Pittsfield has a handsome Victorian courthouse with a statue on its fine front lawn of a pig. On the base of the statue, it says, "Pittsfield, Pork Capital of the World." Also the setting for my first book, "Harvey the Beer Can King," Pittsfield was just the place for Tuan Nguyen and his family to come face to face, for the first time, with Halloween, snowpeople, prejudice, and pumpkin pie.
