We laughed until we cried!Von Ein KundeI bought this book for my 7 yr old just before moving from the east coast to the west coast in the middle of the school year. Our first Betsey Duffey book. We absolutely LOVED it! We read every Cody book she put out since as soon as we can get our hands on them. My son insist we owning every one so he can read them again and again. He can really relate to Cody.0 von 0 Kunden fanden die folgende Rezension hilfreich. I liked the book. It was really funny!Von Ein KundeIt was funny when he was going rollerskating and he got so dizzy that he went into the girls bathroom by accident. The girls saw him and wrapped him up with toilet paper. This is a

good book for kids who like to laugh.

Kurzbeschreibung Cody's father is an F.B.I. agent, he's got a pet emu, and he's an ace on Rollerblades. At least, that's what Cody tells his class on the first day at his new school. Being Super Deluxe Cody is great, until someone throws a skating party. And suddenly, the game may be up! From the Trade Paperback edition. From Booklist Gr. 2[^]-4. When his family moves in the middle of the school year, third-grader Cody decides to start fresh: instead of being ordinary Cody, he's going to be Super Cody. Standing in front of his new class, he announces he's from Alaska instead of Topeka, Kansas, and that he's "smart, supersmart. In fact, a genius." Despite far-fetched claims, he still feels invincible, even though his lie about being a champion skater is about to be tested at a birthday skating party. Duffey brings Cody safely and humorously through his predicament, letting children sympathize with his embarrassment, and as in *How to Be Cool in Third Grade*, she has written this chapter book with an obvious understanding of the real concerns of eight- and nine-year-olds. Susan Dove Lempke From School Library Journal Grade 3-4? Because he's dreading being the new kid in school, Cody, a quirky, wise-cracking third grader, transforms himself into Super Cody. Nothing is ordinary in his life; he tells everyone he's a world-class skater, that he has a pet emu, and that his father is an FBI agent. But rather than making the transition smoother, his new image only causes embarrassment. He is invited to Holly's skating party, and since he's never really skated, he succeeds in rolling into the girl's bathroom and exiting as a toilet-paper mummy. But thanks to a supportive mother, an understanding teacher, a few kids willing to give him a chance, and a science project, he makes friends. Duffey's characters display a wide variety of realistic emotions, and students will readily identify with them.?
