**Von Frank Bethwaite : Higher Performance Sailing: Faster Handling Techniques** before purchasing it in order to gage whether or not it would be worth my time, and all praised Higher Performance Sailing: Faster Handling Techniques:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Gewaltiges WissenVon rayaFundiertes und mit grundlegenden Erkenntnissen belegtes und vermitteltes Wissen.Einziger Wermutstropfen: teilweise repetitiv und daher stellenweise auch schwerflilig. Aber man verzeiht es dem Autor, nicht zuletzt in Anbetracht des fortgeschrittenen Alters. Und nach seinem Tod 2012: ein grosses Vermchnis fr die Seglergemeinschaft.

Kurzbeschreibung 'Monumental!' - Bob Ross, Australian Sailing High Performance Sailing is now regarded as the bible of racing sailors and carries a string of endorsements from high achievers. Since its publication in 1984, racing yachts and dinghies have developed out of all recognition - a new high-tech breed of 'apparent wind' fast racers has claimed the water and so far no-one has applied themselves seriously to analysing what makes these boats sail fast (and what will make them faster). This is Frank Bethwaite's ground-breaking achievement in Higher Performance Sailing. By means of extensive research, and working with sailors of different racing calibre, Bethwaite analyses how to harness the apparent wind for increased speed and better position on your rivals. Higher Performance Sailing will provide the key to racing sailors' dreams. Praise for Bethwaite's High Performance Sailing: 'It represents a breakthrough... It is a book that my Olympic squad will benefit from.' Rod Carr, former British Olympic Sailing Team Manager 'Allowed only one "if only" in yacht racing, it would have been to have read Higher Performance Sailing years ago.' Bob Fisher, journalist, broadcaster and international championship winner

Pressestimmen "A book that I read from cover to cover... should be on the bookshelves of anyone who sails these boats competitively, not only at grassroots level but also at national and international, even Olympic, levels. It really is that good." --Amateur Yacht Research Society
