Von Franz Wisner : Honeymoon with My Brother: A Memoir before purchasing it in order to gage whether or not it would be worth my time, and all praised Honeymoon with My Brother: A Memoir:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich.
UnterhaltsamVon Julia AustSehr nett geschriebene Geschichte ber zwei unterschiedliche Brder und deren erstaunliche Reise annlsslich einer geplatzten Hochzeit. Lustig und ernst zugleich.

Kurzbeschreibung This is the true story of Franz Wisner, a man who thought he had it all- a high profile career and the fiance of his dreams- when suddenly, his life turned upside down. Just days before they were to be married, his fiance called off the wedding. Luckily, his large support network of family and friends wouldn't let him succumb to his misery. They decided Franz should have a wedding and a honeymoon anyway- there just wouldn't be a bride at the ceremony, and Franz' travel companion would be his brother, Kurt. During the "honeymoon," Franz reconnected with his brother and began to look at his life with newfound perspective. The brothers decided to leave their old lives behind them. They quit their jobs, sold all their possessions, and traveled around the world, visiting fifty-three countries for the next two years. In *Honeymoon With My Brother*, Franz recounts this remarkable journey, during which he turned his heartbreak into an opportunity to learn about himself, the world, and the brother he hardly knew.

deFranz Wisner had the world by the tail. He was engaged to the beautiful Annie, with whom he shared a passion for conservative politics and a command of quotes from the movie *This Is Spinal Tap*. He worked as a government-relations official for a California real-estate giant, rubbing elbows with bigwig politicians. But then his fiance dumped him days before their wedding, and his boss demoted him. So he dragged his younger brother, Kurt, a Seattle realtor and divorc, to Costa Rica for his already-scheduled honeymoon, where Wisner spilled his guts to a prostitute in the hotel bar. ("Not once did it occur to me that I was having a heart-to-heart with a woman who faked orgasms for a living.") Both inspired and desperate, the two quit their jobs, sold their houses, gave away their belongings, and traveled the world for two years, romping through Europe in a newly purchased Saab, then hitting the Middle East, Southeast Asia, South America, and Africa. Along the way, Wisner got to know his brother in a way he never had ("Kurt had become ... my new best friend") and fought to move past his failed relationship. Wisner's story is straightforward, heartfelt, and highly readable--though without any true, biting insights--and should connect with readers who've gone through a breakup, career change, or midlife crisis, or fantasized about quitting the rat race. His best travel tip? Throw away the guidebooks, and talk to the locals instead. --Andy Boynton.com
