Von Helpful Advice Hop! Hop! is a newest installment in board book series of author and illustrator Leslie Patricelli. This time the theme of her book is Easter, egg dyeing and other known customs associated with Easter. The main character Baby is preparing for her favorite holiday Easter, with bunny ears and basket that needs to be filled with eggs. Baby is going to dye eggs learning which colors can be combined in order to produce some others, but when the Easter basket will be ready full with eggs in the evening, the surprise is going to happen on the Easter morning. Leslie Patricelli once again produced nicely illustrated, humorous and enjoyable board book for youngest readers that will both make them laugh and teach what Easter means. In addition, book offers valuable lessons about mixing of colors that will be especially interesting to children who love to draw. Therefore Hop! Hop!, though not so innovative with its theme, will still manage to keep interest of the youngest readers. Leslie Patricelli knows how to make funny and educating board book and given Easter is near, her book though without religious motifs associated with this holiday season, still would be welcome for reading and enjoying in the days that follow enabling kids to start preparation for this beautiful holiday.

KurzbeschreibungThe inimitable Baby brings a humorous spin to the holidays in an e-book perfect for Easter time.The Easter Bunny is coming! Its time to dye eggs. Did you know that red and blue make purple? That blue and yellow make green? That an art project may result in a multicolored Baby? There are bunny ears to wear (for the dog and cat, too) and an Easter basket to put out before bedtime. What will Baby find inside it the next morning?PressestimmenThe author pays a little lip service toward education by showing primary colors combining to create secondary colors, but the book's main focus is the exuberance that comes with celebrating the holiday, particularly when the traditions are so new and exciting. The enthusiasm is infectious, and read-alouds will most likely lead to little ones' looking to do some arts and crafts of their very own. As bright and bold as the holiday it celebrates.Kirkus sPreschoolers, parents, teachers, and librarians will be excited to "hop" to Patricellis latest.School Library JournalKurzbeschreibungThe inimitable Baby brings a humorous spin to the holidays in an e-book perfect for Easter time.The Easter Bunny is coming!
