Von Marjorie Gersh-Young : Hot Springs and Hot Pools of the Southwest (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Hot Springs and Hot Pools of the Southwest (English Edition):

JohnsonI've thoroughly enjoyed this book, as well as it's sister volume for the Northwest. It adds an extra dimension to my travels. Springs are listed as commercial or "wild" type springs, and also categorized by water temperature and ease of access. I prefer wild springs, but as a relatively lazy sybarite, I won't bother with a spring that's only "warm" when the access is moderate or difficult. On the other hand, if the review is great and the water nice and hot, I don't mind a hike. Definitely use directions in conjunction with a road map as recommended; some springs are in squirrely locations. A spring we visited in New Mexico last year was truly breathtaking and one of the highlights of the trip.0 von 0 Kunden fanden die folgende Rezension hilfreich. Great new

edition! Von Ein Kunde I first purchased an edition of your book in the early 90s. Last month, while in Calistoga, I purchased the 1998 edition and I want to let you know it is just great. I enjoyed reading about the additional springs in this edition. Descriptions of places I've stayed or used are quite accurate, and, in fact, I designed one vacation to New Mexico around the spots mentioned in your book. Thanks so much for compiling the information in this book. 0 von 0 Kunden fanden die folgende Rezension hilfreich. "WILD GOOSE CHASES OF THE SOUTHWEST" Von Ein Kunde I selected 3 natural hot springs to visit during my last vacation. Of those 3, NONE WERE OPEN! You can imagine the disappointment after driving hundreds of miles. This is in addition to low-quality black/white pixelated photos, low-quality maps, and extremely general directions. If you do acquire this book, I would recommend using another guide and good maps as a supplement to enhance and clarify any real substance you might chance upon.

Pressestimmen Hot Springs and Hot Pools Of the Southwest should be very high on your "don't leave home without it" list. Buy two: one for your house where you plan all your trips and definitely one to take with you.
