KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. einfach interessant zu lesenVon Karl Toffelob diese Memory Technik wirklich besser ist als andere kann ich nicht sagen. Ich habe sie als e-book gekauft, und der Schreibstil des Autors ist sehr motivierend. Allerdings hatte ich keine Probleme vietnamesische Vokabeln zu behalten, lediglich die Tonhoehen gehen mit fehlender Praxis verloren. Da ich nur einen E-Reader habe, aber keinen Computer mit dem ich mir die dazugehoerenden Lernvideos, welche ueber youtube verbreitet werden, ansehen kann, sind wohl nicht alle Lernschritte nachvollziehbar. (Im Internetcafe hier in Vietnam lernen macht wenig Laune.) Aber allein seine Gedankenspiele waren das Lesen des Buches wert.

KurzbeschreibungHow to Learn and Memorize Vietnamese Vocabulary ... Using a Memory Palace Specifically Designed for Vietnamese (and adaptable to many other languages too)If you'd like to improve your ability to learn Vietnamese vocabulary by as much as 100%, 200%, even 300% (or more) ... using simple memory techniques that you can learn in 15-20 minutes (or less), then this may be the most important book that you will ever read.Believe it or not, it really doesn't matter if you think you have a good memory or not.The information in this book will teach you:* Why memory is like a bicycle everyone can ride (with some minor personal adjustments).* The real reason why no one should ever be squeamish about memorization or learning a language.* Why and how some of the most famous memory skills are applicable to learning any language, especially Vietnamese.* How you can easily create a "letter location" memory system based on the Vietnamese alphabet.* How to quickly and easily learn and memorize the sounds of the Vietnamese alphabet* Unique techniques that will have you literally "tuning in" on the Vietnamese language.* How to separate Vietnamese words in the most effective manner for memorization.* Two secret ways you can use relaxation to aid the memorization process. These two methods alone are worth the price of this book because they will literally eliminate your stress and apprehension as you learn Vietnamese.* And much, much more ...These techniques have been used by real language learners, most of whom previously considered themselves owners of a "bad memory," to make real strides in learning Vietnamese vocabulary.Don't worry! None of these techniques involve brain surgery! Frankly, if you can memorize a short email address or the name of a movie, then you can use this system to memorize a language as rich and diverse as Vietnamese.Plus, everything you'll learn in this book applies to every other language that shares the same alphabet with English. And with a little imagination, the ideas are easily transferable to other alphabet systems too.But there's really no time to lose.Every day that you are not using this simple vocabulary memorization system, you are literally stealing from yourself the joy of being able to read, speak and recall an abundance of Vietnamese vocabulary as you easily expand the natural abilities of your mind.KurzbeschreibungHow to Learn and Memorize Vietnamese Vocabulary ...
