Von Carol Frost Vercollone
Just to add to other great reviewers' points, this book is perfect for conveying joy in life's many possible activities, even when you don't have someone else to share them with. I counsel lots of folks to whom I loan my copy - parents of one child who worry their child will be lonely if an "only", single moms who also welcome reminders that life can be fun even when you aren't in a relationship, and parents-to-be who worry their child will feel badly about differences, for ex. if they're adopted or conceived with the help of a donor [the topic of my book]. This pig bravely goes on learning even when she's embarrassed or makes mistakes - so this is a good book for parents and kids!

I found this book to be very uplifting. My children (girls -3yr 2 yr) loved it. It establishes self confidence by reminding us of activities that we do daily-- by ourselves. The book gives us a lot of reasons to be proud of ourselves. Caution: the main character is a girl pig and I was told not to buy the book for our

cousin (boy - 5 yr) because he is sensitive to gender (he wouldn't relate to it). I would definitely recommend this book for children (boys and girls) or even a depressed adult!0 von 0 Kunden fanden die folgende Rezension hilfreich. Excellent book for instilling a positive attitude!! Von Ein KundeI started reading this book to my daughter when she was one. She loved to kiss the pig on the last page good night. This book taught her to "try and try again" no matter how much trouble she was having. Many times when she would get frustrated while learning a new skill instead of crying she would stop and say "try again". I buy this for all the baby girls I know. My one year old son does love it too!
