It's one of his favorites. The book deals with the addition of a baby very matter-of-factly, but positively. Both Mommy Daddy take care of the baby. Daddy even changes a diaper. It gives a very positive account of the new baby in respect to the big brother, too. The advantages of being a big boy and big brother are highlighted. I've given this book as a gift for friends having their second child.1 von 1 Kunden fanden die folgende Rezension hilfreich. from a Mommy - to - beVon Ein KundeI am excepting my second child and this book is wonderful to read to my First. It helps him realize that there is going to be a new addition to our family and it emphasizes that he is very special too. It uses simple words and great pictures to tell a wonderful story! My son loves it and so do I.0 von 0 Kunden fanden die folgende Rezension hilfreich. A wonderful "new baby" book for little boysVon Book LoverLittle boys don't always respond well to the super-sappy books about the new baby. Fortunately, this book is different, talking about the new baby's arrival in rather matter-of-fact terms. It's similar to Baby Science: How Babies Really Work (another favorite in our family), but offers a

fictionalized account of life with a new baby. I highly recommend it.
