Von Helen Gurley Brown : I'm Wild Again: Snippets from My Life and a Few Brazen Thoughts before purchasing it in order to gage whether or not it would be worth my time, and all praised I'm Wild Again: Snippets from My Life and a Few Brazen Thoughts:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. The Longtime Legend Still Hast "It"!Von Joy OlsonPeople react in strong ways to Helen Gurley Brown and her "Cosmo

Girl" outlook: with rage at her success despite her often politically incorrect views OR with a sigh of relief at her wonderfully whimsical, life's-a-party attitude. Obviously, I find myself in the latter camp. In her latest candid memoir, HGB gets perhaps more personal than ever with revelations about tough times she's gone through (breast cancer, leaving Cosmo, assorted indignities of aging) with her usual unsinkable style, but perhaps revealing more depth and vulnerability than in her prior books, which tended to concentrate heavily on "land that job, land that man." I think this is Helen at her best- the wisdom that comes from living a remarkable life (that should give hope to any late bloomer), the confidence of a woman who's succeeded too well to worry about appearing flawless, and of course, the ever-present insecurities that made her every Cosmo reader's friend on lonely nights because she'd been there, survived and eventually thrived. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Helen, you'll always be our Cosmo girl! Von Ein Kunde Refreshingly candid as always, even regarding her unceremonious ouster as Editor-in-Chief of Cosmo. Read between the lines and who can blame her for laughing up her sleeve at her replacement's (Bonnie Fuller) quick departure? Ms. Brown comes from the old school where loyalty still counts for something. She's had a remarkable life and she (and her husband, David) continues to show that life isn't over at 50. Indeed one can thrive to the end. Dear Helen, hope you have a few more books in you. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Be afraid Von Ein Kunde She's eighty-something, facelifted, Photoshopped, and lookin' for love. Run for your lives!

Kurzbeschreibung She's back and causing jaws to drop as always! As bold and amusing as ever, Helen Gurley Brown, who made her mark in publishing history when she became editor in chief of Cosmopolitan in 1965, has written her first memoir, *I'm Wild Again: Snippets from My Life and a Few Brazen Thoughts*. While the subjects of her seven previous books have all been drawn from her own experiences, this is the first time Brown has concentrated on herself as the sole subject of a book and revealed the secrets of her sometimes shocking and always interesting life. In *I'm Wild Again*, Brown discusses several aspects of her life that she has not opened up about before. She talks about her breast implants and cosmetic surgery, her bout with breast cancer, her fidelity to her husband. Furthermore, she offers her thoughts on parents, adultery, office politics, exercise, food, marriage, affection...the list goes on. Never one to be shy or mince words, Brown doesn't leave any words unwritten, and the contents of her book "shocked, flabbergasted, amazed, irritated, amused" gossip columnist Liz Smith, who has seen almost everything. Larry King, Frank McCourt, Joan Rivers, Diane Sawyer, and Dominick Dunne have also praised the book and toasted Brown for leading such a courageous and vibrant life. From Library Journal For former Cosmopolitan editor Brown, work, sex, and good looks have not lost their importance even at age 75. Full of spice, this memoir reveals Brown's past, growing up in Little Rock, AR, and explains the prodigious energy that sustained her through 17 secretarial jobs and then over 30 years running Cosmopolitan. The author of seven previous books, including *Sex and the Single Girl*, shocking for its time, and New York Times best seller *Having It All*, Brown writes in a chatty, anecdotal style about face lifts, her brush with lung cancer, and the constant battle to stay thin, occasionally providing information on how to keep a man and succeed in a career. Despite tiresome name-dropping and bragging, Brown has a giggle-inspiring sense of humor that--combined with her "live life to its fullest" philosophy--makes this book entertaining and fun to read. -Nancy R. Ives, SUNY at Brockport Copyright 2000 Reed Business Information, Inc. Kurzbeschreibung She's back and causing jaws to drop as always!
