Lukasz Sikora Gary Vitacco- Robles Icon: The Life, Times, and Films of Marilyn Monroe Volume 1 2 is, as the title explains, much more than Monroes biography; it is a very detailed chronicle of not only the actress` private and professional life, but also of the times in which she used to live. It may seem that everything about Monroes life has been written, but Robles proves that there is still a lot of to research about; Robles debunks in his second volume inter alia myths and conspiracy theories about Monroes death. The authors both volumes are doubtless brilliant, immensely readable, superbly-written and well-researched. The biggest advantage of his books is their thoroughness- Robles` riveting volumes come up with the facts, pure and simple; each of sentences and each of statements are proved and stick to the facts. The author deliberately avoids any sensationalism in order to provide an absolute truth about Monroes life. What should be emphasised is the fact that Robles` biography is the most spacious ever written- with 781 pages of the first and with 892 pages of the second volume (hardback edition- in accordance with data on). Though both tomes are so extensive they arent ever boring, on the contrary- a reader enjoys each of pages. Robles provides a very detailed information not only about each film, each year of Marilyns life, but also particulars about her make up, clothes and piece of jewellery. With his work the author honours Monroe not only as a goddess, a legend, an icon, but first of all as a human being. Robles has given her the treatment she deserves. The actress is reborn and reclothed in a fair and gorgeous way. About the motives for writing of both volumes Robles explained to me : I wrote it with the intent not only to honor Marilyn and to educate readers about the impact of abuse and mental illness, but also for those who both admire and feel empathy for her. Thats just what strikes readers of the volumes the authors incredible empathy for Marilyn. In the light of whats been written in this review I would risk an assertion that G. Vitacco- Robles is the king among Monroes biographers. As an ardent and a long standing fan of Marilyns talent I really appreciate Robles` extraordinary and first-class work recommending it warmly to the fans of MM. As the author wrote to me: The research and writing was a labour of love along journey- a reader can feel it on each page of this excellent book. In order to fill up this review, a special importance should be given to an exquisite layout of both volumes- they are greatly edited in every detail including beautiful pictures of Marilyn on the cover. In conclusion, I would like to add that I had a great opportunity to exchange a few e-mails and messages on Facebook with the author in which I got to know G. Vitacco-Robles as a very warm, intelligent and kind person. On this spot I would like to thank him from the bottom of my heart for his magnificent biography.
