**Von Magdalena Ganowska : Imperfect (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Imperfect (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. ImperfectVon CanYouSeeMeI received my copy of 'Imperfect' via First Reads and probably wouldn't have bought it on my own.However, the book starts with a great peak but sadly lost track whilst continuing. Nevertheless, the main character Meg was colourful described and I could relate to most of her views and opinions. Reading this book was somehow like slipping into the mind of another person and accompany that person through the book, the long

monologues and peaks into the past strengthen this impression. All in all it was a nice read but not as catchy as I hoped it to be. The story lost me from time to time and I needed to re-read a few pages. Yet I liked the book and was glad to notice Meg's personal improvements through the story.

*Kurzbeschreibung* *Imperfect* is a semi-fictional, self-published memoir which takes you on a journey through all sorts and types of intricate and challenging relationships. Meg, the main heroine, the storyteller, could be anybody. Ordinary on the surface, complex and unique in reality. Depicted here, we have a life of a young woman who after hitting the bottom, clawed her way up to the very peak. Solitude, this fatal modern disease, is what Meg had had to tackle since her parents divorce. As a fifteen years old, she started an affair she hoped would mend her wounds but what it actually did to her, was everything but. Many years later, she's given a second chance in life, but her closet, overflowing with skeletons, is something that she finds intimidating and has no idea how to get over it and move on. With a shocking prologue, breathtaking honesty and startling moments of retrospection, the reader is able to dip into the action set in contemporary Gdansk, a magical city situated on the north of Poland, just by the Baltic Sea. This extremely gripping story is not another mawkish prattle but based on true events, brave and straightforward modern tale of how varied faces love can wear. Written by a completely unknown, first time author from Poland, Mrs. Magdalena Ganowska, is a proof that in life, everything is possible.
