Like a good teacher, Kreeft has a knack for using just the right analogy to explain a thorny question. Vivid problems vividly pondered. While not an exhaustive philosophical treatise, it's a fine book for most of us common folk, presenting many problems you will face in your daily life.

Kurzbeschreibung It's a moral jungle out there, writes Peter Kreeft. In "Making Choices" he describes why we find decision-making so difficult and living with our choices even harder. With penetrating wisdom, good humor, and common sense, Peter Kreeft draws a map through the everyday jungle of moral choices, one simple enough for the believer and convincing enough for the skeptic. This book clears a straight road through the thorny jungles of skewed modern thinking about the way to live, and does do with the easy brilliance, impish insight, and searching simplicity that have become Peter Kreeft's special trademarks.
