Von Deeyana Angelo : Market Stalkers: Price Action Trading (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Market Stalkers: Price Action Trading (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Handeln

mit Preis-Aktion Von Lanthanium Deeyana Angelo ist ein erfahrener Trader, der für eine in Chicago ansässige Handelsfirma gearbeitet hat. Seine jahrelange Berufserfahrung verarbeitete Herr Angelo in seinem eBook *Market Stalkers: Price Action Trading*. Das eBook klingt so, als wüsste der Autor, wovon er spricht. Was der Text erläutert, wird durch Bilder noch verdeutlicht. Ich habe zwei Stunden benötigt, um das Buch ganz zu lesen. Das Buch gab man mir ganz für umsonst (vielen Dank!) und sah heute erstaunt, dass es derzeit mehr als fünfzig Euro kosten soll. Das ist ein stolzer Preis. Ob es das wert ist, kann ich nicht beurteilen. 0 von 0 Kunden fanden die folgende Rezension hilfreich. extrem hilfreich Von Tamash Wirklich selten so ein profundes, knackiges Trading-Buch gelesen. Und ich habe extrem viel gelesen! Vielen Dank an den Autor - ich wünsche mir wirklich mehr...

Kurzbeschreibung Learn how to trade markets through price action using supply/demand concept. The ebook is aimed at an intermediate trader who is already familiar with reading candlesticks charts. The ebook teaches how to correctly identify prevailing trends, as well as how to recognise trend turns early. The author also teaches how to find most probable trade locations through an innovative concept of Q points. With lots of practical examples, Deeyana T. Angelo gives us an insight into professional prop trader technical analysis.

ber den Autor und weitere Mitwirkende Deeyana Angelo is best known for her two careers as a session musician and professional derivatives trader. Her ironclad self-discipline as a highly skilled musician allowed her to switch jobs and to become a success in daytrading in a relatively short time. She has worked in the City of London before embarking on a path to create her own prop trading company that also specialises in creating innovative financial trading algorithms with the help of a highly skilled small team of software architects. Deeyana Angelo is the originator of Q Points, an innovative trading concept that vastly improves trading results from a mathematical probability stand point. Q Points can be successfully applied to almost any market, including stocks and shares, commodities, equities and forex.
