Von Jeff Kolby : Master The LSAT (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Master The LSAT (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich.
Amazing Results!Von Ein KundeThis book was invaluable in setting up a good study program to tackle the LSAT because it provided step by step analysis of each LSAT section and taught me how to tackle questions logically. I followed the authors' advice, studied hard and learned how to master the difficult logic games section. The book's analysis of the logic sections and clear explanations of answers in the practice sections were excellent. Since I had been out of school for many years, I needed all the help I could get. Today, I received the LSAT results from the 12 June test; the score surpassed my expectations. Buy this book, pay attention to the advice and study, study, study. You won't be disappointed!0 von 0 Kunden fanden die folgende Rezension hilfreich. A must-have for your LSAT prepVon Ein KundeThis book contains short-cuts in analyzing logic questions and game questions so that you're not bogged

down and worn out by all the details. You sometimes even get a kick for answering a question right with the minimum of effort and sometimes wonder how easy it was. This book cuts down on the time you need to answer a question by putting the fact pattern into a diagram, helping you not to reread and reread the facts every time you answer a different question. There are also drills and explanations on how to apply the technique to various situations. 0 von 0 Kunden fanden die folgende Rezension hilfreich. I've read nearly all of them. This one is truly the best. Von Ein Kunde I took the Kaplan course, and I read "Cracking the LSAT" from Princeton Review, and I sincerely believe that this book is the best preparation tool money can buy. They REALLY get in-depth on Logic Games, and help show how the test-makers try to trick you on Logical Reasoning. Also, unlike other books, this one uses questions from previous tests. I scored in the 99th %-tile, and while there is no substitute for practice with several previous exams, I give large credit to this book for my success.

Kurzbeschreibung Comprehensive, Rigorous Prep for the LSAT. The LSAT is an aptitude test. Like all aptitude tests, it must choose a medium in which to measure intellectual ability. The LSAT has chosen logic. Although this makes the LSAT hard, it also makes the test predictable--it is based on fundamental principles of logic. MASTER THE LSAT analyzes and codifies these basic principles: the contrapositive, the if-then, pivotal words, etc. Armed with this knowledge, you will have the ability to greatly increase your score. Features: * Analytical Reasoning: Learn powerful diagramming techniques and step-by-step strategies to solve every type of game question that has appeared on the LSAT. * Logical Reasoning: Discover the underlying simplicity of these problems and learn the principles of logic these questions are based on. * Reading Comprehension: Develop the ability to spot places from which questions are likely to be drawn as you read a passage. (pivotal words, counter-premises, etc.) * Mentor Exercises: These exercises provide hints, insight, and partial solutions to ease your transition from seeing LSAT problems solved to solving them on your own. * The average LSAT scores of 153 ABA approved law schools. Pressestimmen The best of of its kind. I bought the three best-known LSAT test prep books. I was in despair over taking the LSAT after working through other two, but this one really worked. Buy Master the LSAT and a pile of practice exams from LSAC. I followed the opening instructions to start my prep 12 weeks ahead of my test date, working a little each day (if you aren't self-motivated enough to do that, please forget law school). I have no doubt that this book is responsible for my good LSAT score and admittance to law school. --A Student I've read nearly all of them. This one is truly the best. I took the Kaplan course, and I read Cracking the LSAT from Princeton , and I sincerely believe that this book is the best preparation tool money can buy.
