Von Darrell Young : Mastering the Nikon D5000 before purchasing it in order to gage whether or not it would be worth my time, and all praised Mastering the Nikon D5000:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich.
Excellent for beginners like myselfVon Andrew HammettAs an old SLR user, who bought a digital SLR but then spent months not really understanding it's scope, this book has been a revelation!Well explained, with enough pictures

and diagrams, I would recommend it to anyone coming to digital SLRs and Nikon.

Kurzbeschreibung Mastering the Nikon D5000 by Darrell Young is a comprehensive guide for of the owners of this newest, budget-friendly generation of Nikon digital single lens reflex (DSLR) cameras. The smaller, more lightweight Nikon D5000 mixes generous portions of user-controlled manual photography features with the latest technological innovations, allowing fully automatic point and shoot simplicity. Darrell's approach in helping the reader to master this camera avoids the purely instructional technique, favoring a more friendly and advisory tone. He blends his decades of Nikon camera experience with an intuitive understanding of the readers' most likely questions regarding specific camera functions and features. Rather than just list all options for the myriad of camera settings and adjustments, he explains the background behind each setting and shares his personal recommendations. Darrell understands that many owners of the D5000 may be just entering the world of DSLRs, and he takes the time to guide these new owners through the basics, while giving more experienced photographers the option of a refresher course. Also included is an entire chapter on the exciting new D-Movie function that can record high-quality HD movie clips at an amazing 24-frames per second. Mastering the D5000 is the most recent volume in the highly successful series of Nikonians Press books.

ber den Autor und weitere Mitwirkende Darrell Young (Digital Darrell) is an information technology engineer by trade and has been an avid photographer for over 35 years. He has a rather large family, with his wife and five children, so he has a constantly interesting flow of photographic opportunities. In fact, his entire family uses Nikon cameras to pursue what has become a cohesive family hobby. Darrell delights in using Nikon's newest digital cameras but if pressed, he will admit to being a "closet" film user too. Living next to the Great Smoky Mountains National Park has given him a real concern for, and interest in, nature photography. Darrell loves to write, as you can see in the Resources area of the Nikonians.org community. He joined the community in the year 2000, and his literary contributions led to his invitation to become a Founding Member of the Nikonians Writers Guild.
