Great autobiography of a worldwide superstarVon huneI read this autobiography over the weekend and I could not get enough of it. I was totally impressed by the honesty with which Ricky Martin describes his relationships with both women and men. Furthermore, he provides insight into the life as a worldwide superstar and demonstrates that being

an international superstar is far more demanding than most think. By reading this book one notices how hard it must have been for him to come to terms with his homosexuality, fearing that if he would announce it his career would end and fans might turn their backs on him. Altogether, it is an honest book which gives you the strength to always pursue your targets and to live your life to the fullest. 0 von 0 Kunden fanden die folgende Rezension hilfreich. A nice view behind the man Ricky Martin. Von Kindle-Kunde I really enjoyed reading this book. Ricky Martin has always been an interesting person (my point of view ^^) It describes his life and all the developments in a good way. Very interesting are the 2! Ricky Martins in this book, the one he showed the people in his close life and the one he shared with the world (Maria, Livin' la vida Loca). I didn't know that his career started in the band Menudo, never heard of them before. He is a father of 2 children now and has got a bf he is living with. I think he is a modern role model like Lady Gaga, Kathy Perry, Kesha,... who are all so tolerant and just want to live like they want and be who they are ^^ 0 von 1 Kunden fanden die folgende Rezension hilfreich. Nice write-up. Von A. D. Saningong A very good, personal and passionate write-up. Although it had some undertone of too much self-pride :-). But I've read two times already and will still read it again.

Kurzbeschreibung International superstar, Ricky Martin, who has sold more than 60 million albums worldwide, opens up for the first time about memories of his early childhood, experiences in the famed boy band Menudo, struggles with his identity during the Livin' la Vida Loca phenomenon, reflections on coming to terms with his sexuality, relationships that allowed him to embrace love, and life-changing decisions like devoting himself to helping children around the world and becoming a father. Me is an intimate memoir about the very liberating and spiritual journey of one of the most iconic pop-stars of our time. From the Hardcover edition. Pressestimmen In the process of revealing the human being behind the artist, Ricky Martin offers us a testimony of exemplary honesty and greatness of soul. While I was reading, I remembered a verse from the Persian poet Hafez, 'Not even seven thousand years of joy can justify seven years of repression.' (Paulo Coelho) Ricky Martin has written an extraordinary memoir, the story of a tortured soul who healed himself by returning to the state of innocence and authenticity. His story will speak to you, because it is, in a sense, the story of humanity-of the sacred and the profane, of forbidden lust and unconditional love. It takes courage to be so ruthlessly honest and transparent, but it is only this kind of courage and this kind of love that can heal the world. Bravo!
