KurzbeschreibungMemory Fields recounts Shlomo Breznitz's devastating experiences upon being placed in a Sisters of Saint Vincent orphanage just hours before his parents were sent to Auschwitz. He tells of events with other orphans, his teacher, classmates, the prelate and dreaded visits by Nazi officers periodically searching for Jewish children. He describes overwhelming feelings of isolation and loneliness, and persistent dread of being discovered. Interwoven throughout the book, Breznitz, the psychologist, draws on his history and explores the nature of cruelty and kindness, of stifling fear and outstanding courage, and the ways in which memory shapes our lives.
