Von George F. Will : Men at Work: The Craft of Baseball before purchasing it in order to gage whether or not it would be worth my time, and all praised Men at Work: The Craft of Baseball:

Kurzbeschreibung In his classic tribute to America's pastime now with a new introduction political commentator, Pulitzer Prize-winning journalist, and lifelong sports enthusiast George F. Will travels from the baseball field to the dugout to the locker room to get to the root of the game we all love. He breaks down the sport to its four basic components, managing, pitching, hitting, and fielding, and analyzes the way four of its notables, manager Tony La Russa, pitcher Orel Hershiser, outfielder Tony Gwynn, and shortstop Cal Ripken Jr., approach the game. One of the most acclaimed sports books ever written, *Men at Work* is a revelatory, and often surprising, study of professional baseball. In *Men at Work*, political pundit George Will breaks baseball down, parsing it into essential tasks: hitting, fielding, pitching, and managing. Why do some succeed grandly while others are more apt to whiff? By analyzing the way Tony Gwynn, Cal Ripken, Orel Hershiser, and Tony LaRussa approach the game and do what they do, he finds striking similarities in intelligence, dedication, drive, and desire. *Pressestimmen* A classic that may even stand up as the best baseball book of the 90s. (Chicago Tribune) All fans will be in Will's thrall and in his debt. (New York Times Book)
