Von ECHO HERON : MERCY (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised MERCY (English Edition):

Enjoyable, worth a read, although not Ms Heron's bestVon Ein KundeThis book is almost in two sections - The first half had me worried, with the attempts to put people's thoughts on paper. I found this confusing and boring and ended

up skipping huge sections of these obscure ramblings. The scene-setting became a little tedious, as I wondered when the 'story' would start. The second half of the book leaves out virtually all the character thought processes (although Walker's sequences continued to annoy me), and became a much better read which kept me hooked and keen to know the outcome. Overall, I'd recommend reading the book, the several initially diverse storylines are well woven together. If this is your first read of Echo Heron material - be aware that, in my opinion, all her others are much better than this one.

Kurzbeschreibung Catalina Richardson is both dedicated nurse and black sheep of Mercy Hospital where, in the chaos of the infamous Ward Two, she is torn between the demands of being a nurturing caregiver and being choked by hospital politics. With little sanity left in her packed days, and with only the sanctuary of a cramped linen closet to sustain her, Cat is slowly losing her patience and her mind. That is, until an intriguing police detective investigating the brutal beating of a celebrated artist brings a ray of hope into Cat's frantic and lonely existence. Before romance, however, comes the care of the patients who pull her back from burnout to compassion: CROSS the famous young artist whose psychopath boyfriend nearly kills her. He tries again, only to have Catalina get in his way CORKY the All American teen from a happy family, except Corky has attempted suicide and will do it again before telling anyone the nightmarish truth behind it PROFESSOR DEAN A victim of AIDS whose gentle courage and love of life bring the fight home to Cat STELLA 95 years old and full of piss and vinegar, but her determination to keep a 45 year old bloody tragedy hidden is slowly beginning to wane WALKER A San Francisco bartender and father of the precocious 8 year-old Zoe, is dying from cancer. He refuses to let go until he finds the answers to what his life was all about
