Innovative and educating series of books that cannot be recommended enough Von Helpful Advice Mission Barcelona written by Catherine Aragon and designed by Nada Orlic is a part of A Scavenger Hunt Adventure series the innovative and educating series of books that help their readers to learn about particular city in a very special way. From the moment I saw the front cover of this book I knew this is something special I think the closest description would be this is the thinnest, yet greatest guide I would like to take with me on a trip and have great time. Though mainly written for the younger audience, Mission Barcelona would be also great read for the adults. In a very entertaining way this guide manages to present the best Barcelona can offer, all wrapped up in the game of scavenger hunt. Besides leading reader through the most known city sights, it will introduce you the city history, Spanish language and many fascinating stories that even seasoned travelers some of them would hear for the very first time. As aforementioned, the whole guide is made like a game that you need to finish visiting all the city sights while doing some funny activities in process making your (next) visit to Barcelona something to remember for a long time. Overall, A Scavenger Hunt Adventure is something that cannot be recommended enough one has to see it from own eyes. I was given a copy of this book by the author for the purpose of unbiased review, while all the presented information is based on my impressions.

My son enjoyed finding things in the city we all enjoyed finding things that we may not have known existed... Enjoying life Ideal travel companion for grade school kids! Both of them were eyes-wide-open looking for items in the book, which made everything more interesting for them (and then we didn't have any whining about more churches or sightseeing). Highly, highly recommend... -Ibsells This was a great way to explore beloved Barcelona with my 7 year old daughter. She learned so much from this book... Jen F. Great for teenagers! I love these books! My kids are 12, 14 and 16 so I was afraid they might think they were "baby" books, but they are enjoying them. -Marilyn Thomas Kurzbeschreibung Planning to travel to Barcelona with kids?
