Comprehensive teaching materials perfectly adjusted for daily Chinese teaching  
Von Echs  
I've seen a lot of Chinese learning materials. And to be honest I was not often happy with them. These 4 books, however, are the perfect basis to not only learn basic Chinese but also improve your Chinese gradually and constantly to an advanced level. I had a lot of fun working with these books and the gradual increase in complexity regarding vocabulary and grammar was just right for me - steady and challenging but not too steep. It absolutely matches the needs of Western learners. Book 3 gives an introduction in common situations and conversations. Perfect to apply the things learned in the previous two books.

Kurzbeschreibung  
In recent years, China has grown to be a powerhouse in the world economy. Mandarin, Putonghua in Chinese, has always been the world's most spoken language by sheer volume of native speakers but its value has also become especially important among foreigners and business professionals. With the ever increasing focus on international trade with China, Western interest in learning Chinese has grown exponentially. As a Chinese native speaker fluent in English, I have been translating, interpreting and teaching for many years. I have not always been satisfied with the available books and materials for teaching Chinese to foreigners. Over the last several years I have tried, tested and perfected various lessons and techniques that apply well to Chinese studies. I have collected and now publish all of these modern techniques into books. One of the unique features in these books is the literal translation into English of common Chinese expressions and vocabulary. For example, you can often see lit. with the grammar points in BOOK 1, showing the direct translation of the Chinese text. This will reinforce an understanding of sentence structure and grammar which has proven to be instrumental in helping you retain the Chinese you have already learned. Other Chinese language books do not use this approach. BOOK 3 provides useful, high frequency language and examples heard everyday on the streets of China. This book is designed to give the reader a solid basis for understanding Chinese in different day-to-day situations, such as eating at a restaurant, and dealing with emergencies and everything in between. You can study these daily life topics in any order. Like BOOK 1 and BOOK 2 in this series, one of the unique features of this book is also the literal translation into English of common Chinese expressions and vocabulary. NOTE: After you have learnt Pinyin (initials, finals and tones) in Part 1 of BOOK 1, you are ready to continue studying any of the books within the Modern series... BOOK 1, 2, 3 and 4.

After graduation from University in 2009, Vivienne worked as a freelance interpreter for many international companies such as Huawei, Samsung, Apple, Mercedes, Siemens, Areva, Peugeot, and others. In 2010, Vivienne decided to fully dedicate herself to teaching Chinese language to foreign expats employed at those same multi-national companies where she worked as an interpreter before. In 2012, based on the success of her teaching, Vivienne wrote a series of books that teach Chinese using her unique learning methods. These techniques have become very popular among her students and readers.
