**Von Paula Polk Lillard, Lynn Lillard Jessen : Montessori from the Start: The Child at Home, from Birth to Age Three** before purchasing it in order to gage whether or not it would be worth my time, and all praised Montessori from the Start: The Child at Home, from Birth to Age Three:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Good

bookVon KundeGood book for introducing Montessori Principles at home, even if sometimes it seems a bit categorical for use at home11 von 11 Kunden fanden die folgende Rezension hilfreich. Gutes und SchlechtesVon SolrosErstmal hat das Buch viele gute Ideen und ermutigt, das Baby vieles alleine machen und lernen zu lassen. Alleine essen und trinken lassen und nicht fittern zum Beispiel. Das macht ja auch Sinn (siehe Baby-led Weaning).Leider finde ich, dass viele Punkte dort einfach nicht reingehen oder vllig berholt sind. Gestillt wird nach festen Rhythmen alle 4 Stunden und nicht nach Bedarf, was auch viel fter wre. Zufittern muss man nach 6 Monaten, laut Buch, weil dann die Muttermilch nicht mehr genug Nhrstoffe (Eisen) hat. Das ist erwiesenermaen falsch.Doof finde ich, dass das Kind einzeln essen soll, an einem speziellen Stuhl - am Anfang.Das Kind soll im eigenen Zimmer schlafen, mit geschlossener Tr, auch wenn das einige Weinerei bedeutet. Schade, dass das da drinsteht.Desweiteren sind viele Dinge mit festem Alter verknüpft, wie Laufen mit 12 Monaten, was eher verunsichert, weil jedes Kind doch anders ist.Man soll die Kinder nicht zuviel rumtragen, weil das nicht die Selbstndigkeit frdert. Finde ich ja richtig fr ein lteres Kind, aber fr ein Neugeborenes?Hier tte es auch gut, wenn sich die Autoren auf die Montessori-Lehre alleine fokussieren und sich beim Thema Ernhrung und Schlafen raushalten.Ist trotzdem recht interessant zu lesen. :-)

But... be ready to concentrate, small letters, lots of pages and info. You will have to return to it at every step of your baby development. Best book so far about Montessori up to 3 years

KurzbeschreibungWhat can parents do to help their youngest children in their task of self-formation? How does the Montessori method of hands-on learning and self-discovery relate to the youngest infants? This authoritative and accessible book answers these and many other questions. Based on Dr. Maria Montessori's instructions for raising infants, its comprehensive exploration of the first three years incorporates the furnishings and tools she created for the care and comfort of babies. From the design of the baby's bedroom to the child-sized kitchen table, from diet and food preparation to clothing and movement, the authors provide guidance for the establishment of a beautiful and serviceable environment for babies and very young children. They introduce concepts and tasks, taking into account childrens' "sensitive periods" for learning such skills as dressing themselves, food preparation, and toilet training. Brimming with anecdote and encouragement, and written in a clear, engaging style, Montessori from the Start is a practical and useful guide to raising calm, competent, and confident children.PressestimmenA major and timely contribution to the early childhood yearsanecdotal, rich in insight and experience, practical and useful. This informed, careful, and intelligent response to the unfolding of personality will peak parents interest as they learn how to establish healthy, enjoyable, and sustaining relationships with their children. A must for parents-to-be, nannies, and care-givers. Virginia McHugh Goodwin, Executive Director, Association Montessori International, U.S.A.KurzbeschreibungWhat can parents do to help their youngest children in their task of self-formation?
