Von Thelma Geer : Mormonism Mama And Me before purchasing it in order to gage whether or not it would be worth my time, and all praised Mormonism Mama And Me:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. This book is written in a gentle and loving way.Von Ein KundeIt is so easy to see how many people can be fooled into thinking that the LDS church is just another Christian church, especially for the third and fourth generation Mormons

who grew up in the church. I think this book is written tactfully from a woman who knows how Mormons perceive their religion. She is not condemning the Mormon people, in fact, she loves them. That is how true Christians should be. The Mormons are deceived by Satan, who disguises himself as "an angel of light". There are many false teachers and prophets in the world who have deceived many, and will continue to deceive many more. They steer people away from the true deity of Jesus Christ, who was in fact GOD in the flesh. And that he is the ONLY WAY of salvation. We cannot earn salvation by keeping the commandments or doing good deeds. Salvation is a FREE gift from God. Anyone can receive the FREE gift of salvation by accepting that he or she is born a sinner, and that Jesus died on the cross for our sins. And that we need to ask Jesus into our hearts to be our personal Lord and Savior. It is what JESUS DID for us that we have salvation. I pray that the Mormons who read this book will find the TRUTH.0 von 0 Kunden fanden die folgende Rezension hilfreich. A MUST FOR ANY LIBRARY! Von Eric Hoff This literature is one of the most powerful ministering tools to put in the hands of those who are in bondage of Mormonism or who are considering investigating it! Thelma has offered an original 1830 1st edition copy of the Book Of Mormon to anyone who can disprove the information in her book "Mormonism, Mama, and Me". So far no takers. Her writing style is soft and not abrasive. She comes from a loving and caring perspective and feels that the information she covers in this book is important enough to stand up and speak in truth about the foundation of the Mormon religion. The Mormon doctrine is ever changing and the writings are continually edited and revised as to be faith promoting to its members. Many Mormon members have little knowledge of the actual facts concerning the foundation of their own religion. Thelma provides a good starting place for the reader. She includes a wonderful bibliography and some photo copies of some of the original writings from leaders of the church in the appendix. Great book to include in any library, gives a good overview of the complexity, difficulty, and deception of Mormonism.0 von 0 Kunden fanden die folgende Rezension hilfreich. Geer's work is crucial for witnessing to mormans. Von Ein Kunde this book is a welcome addition to the libraries of those who defend the christian faith. the manner in which the book is written is charming and quite eloquent. mrs. geer uses facts and personal experience to convey to her "beloved morman people" that the jesus christ they worship, is not the jesus christ of the bible. every morman woman should have the opportunity to read this book. it will change the way they view the after-life and open up many promising doors to a better hope for eternity. i enjoyed every line of mrs. geer's work and i am a man. therefore; without hesitation, i urge mormans and christians alike to read "mormanism, mama and me".

Kurzbeschreibung Raised in the Mormon church, she dreamed of becoming a 'heavenly queen.' A personal account of one woman's Mormon heritage and her conversion to the Christian faith. Examines several important tenets of the Mormon faith.
