Von R Phillip Roberts : Mormonism Unmasked (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Mormonism Unmasked (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich.
Misrepresentation of Mormonism Von Ein Kunde This book is typical of a particular genre of books written by self-styled "Christians" but who are in reality extreme fundamentalist evangelical Christians who characterize other Christian denominations as "non-Christian" (hence the implicit definition in the title of the beliefs of the Church of Jesus Christ of Latter-day Saints as being in opposition to "Christianity"). Heavy with facts taken out of context, and

quoting largely from other polemical critics from similar backgrounds, it will fuel the fires of intolerance in the hearts of those already so inclined and will just upset Mormons. It is not a neutral or balanced review of LDS doctrine or history. Marc A. Schindler 0 von 0 Kunden fanden die folgende Rezension hilfreich. Balanced, Well Documented Von Ein Kunde This is a balanced, well-documented comparison between LDS doctrine and evangelical Christianity. It offers an evangelical critique of LDS history and beliefs. Mormons may find many of their assumptions about their history, scripture, and theology strongly challenged. Other readers will find it a helpful tool for talking with their LDS friends. 1 von 2 Kunden fanden die folgende Rezension hilfreich. Life is Short, Books are Many Von Ein Kunde There are many serious works on Mormon history and doctrine -- not all of them, by any means, by believing Mormons. A book does not have to be "faith-promoting" or even completely positive to be serious. But this is not a serious book. That is, it makes no genuine effort to understand the target of its assault, but instead rushes to score cheap points and to reach snap judgments. I dare say that few Mormons would recognize themselves or their beliefs in this book. Those who are inclined to credit what Mr. Roberts does here should ask themselves how their own beliefs would fare, if subjected to the same kind of marginally informed, uncomprehending, wholly unsympathetic, unbalanced, relentlessly hostile critique. It's hard enough to communicate across religious and ideological divides; the task becomes essentially impossible when good will is lacking.

Kurzbeschreibung Mormons tend to be model citizens-friendly, honest, hopeful, kind-everything that should be expected from a Christian. But, as this book points out, the Mormons aren't Christian at all. The Church of Jesus Christ Of Latter-Day Saints is an extremely powerful and influential religious organization, reaching hundreds of millions of people worldwide. Unfortunately, what the Mormons are propagating is a false god, false Jesus, and false gospel. This incisive book clearly explains the Mormons' basic beliefs and sharply refutes their subtle heresies. After walking the reader through the Mormons' evangelistic techniques and strategies, the book gives Christians easy-to-use guidance on witnessing to Mormons, so they can effectively and lovingly defend the true Christian faith.
