Von John R. Farkas, David A. Reed : Mormons Answered Verse by Verse before purchasing it in order to gage whether or not it would be worth my time, and all praised Mormons Answered Verse by Verse:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Never read the bookVon Ein KundeI wanted to respond to the last comment. I'm 14, and I'm a Mormon girl, and darn proud of my heritage too. It's people like you who give ME a hard time about my faith. You read one book, probably by

some anti-lds psycho, who still thinks that believing in Christ doesn't make you a Christian, and you assume that you know everything about us? Have you ever gone to a Mormon church? Have you ever read the Book of Mormon with an open mind? Have you ever tried to talk to an lds active member? Our past, we tried to live in peace and to prosper, but people who were filled with hate and jealousy massacred innocent women and children (Hans Mill Massacre). We are a united people who raise their youth in the ways of righteousness. I'd like to quote on of my all-time favorite movies, The Man Without a Face, in that "If this is all that you can see, then you cannot see me." If you cannot see past the myths that distort our image, then you cannot really understand who we are. Thanks for the question, though. Sorry if I was a little too candid, it's something that I must work on.0 von 0 Kunden fanden die folgende Rezension hilfreich. More a responseVon Ein KundeThis is a sort of response to the 14-year-old who bashed the book below. I found it to be a very informative read, and as a non-Mormon, it reinforced some of the opinions I have come to hold about the church. But I should clarify. I *have* read the Book of Mormon. I *have* attended the church. I have had protracted discussions with Mormon missionaries, and I have had six months of continued discussion with one person in Utah, firmly a member of the church. So all I have to say is this: how can you tell people never to read this book? Is the Church on such shaky ground that hearing the words of one "anti-lds psycho" will collapse the whole thing? If so, you should consider reading it yourself. Oh, and believing in Christ doesn't make you a Christian. Come on, you're Mormon, you know that, right? *Living a Christlike life* to the best of your ability makes you a Christian, and nothing else.0 von 0 Kunden fanden die folgende Rezension hilfreich. A Catholic's OpinionVon Matthew B ReidIf you have not taken the time to study the Mormon "Church" then this book is for you. It Really helps those with little experience with the religion understand it fully. I live in a town with a large Mormon population, and have used this book and others to convert several of my friends to true Christianity. If you are looking for other tools which are helpfull to witnessing to mormons, I would also recomend The God Makers, By Ed Decker and Dave Hunt. Nothing is sadder then losing a friend or family memeber to a cult, make sure you have the knowledge to stop it. And Yes, I have been to the mormon "church" with my mormon friends, and yes, I have had talks with your "Mission" people. Attacking me on this baisis will be futile. Thank You.

KurzbeschreibungOne of the most thorough presentations in print on Mormon theology compares each teaching with what the Bible says. Designed for quick reference.KurzbeschreibungOne of the most thorough presentations in print on Mormon theology compares each teaching with what the Bible says. Designed for quick reference.BuchrckseiteTwo young men stand at the door. Their white shirts and conservative haircuts project traditional values. Their manner exudes warmth. They speak of the need for a stronger family and deeper commitment to God. Do these Mormon missionaries represent Christ? If not, how do you evaluate and answer their statements, many of which sound true? Mormons Answered Verse by Verse is ideal for such a moment. Organized for fast reference, it demonstrates why Mormon teachings have led more than 8 million people into a system of beliefs that bears only a surface likeness to Christian faith. David Reed and former Mormon leader John Farkas comment on passages from the Book of Mormon and the Bible to show how the Church of Jesus Christ of Latter-Day Saints redefines words to hide a man-centered, polytheistic theology. This book also explores deeper doctrines and rituals that most Mormons don't understand, making this one of the most comprehensive handbooks on the sect ever prepared.
