substitute for the textbook Von Customer I was on the verge of just dropping the course, due to the tedium of reading the officially endorsed AQA textbook, which is a piecemeal of poorly written chapters and impossible to work with as most cases stated were poorly explained and condensed to a few very short points without detailing the intricacies that led to the decisions, but then I discovered this ebook. This book is very concise, comprehensive and most importantly very, very well written. So far it seems to cover everything necessary to achieve a good grade. The author's evaluations and remarks are, in my opinion, invaluable and breathe life into the subject. The appendix contains all important case decisions, is simple to navigate with kindle for PC and grant an in-depth view on how the decisions in question were reached.

NOTE The edited judgments of all cited cases in these chapters are laid out in an appendix. Kurzbeschreibung MURDER CHAPTER 1.
