shows all of us that a happy fulfilled life is possible, even if you are, as people use to say "disabled" or born and raised under bad circumstances. An inspiring story, a real life, good written and full of hope.

KurzbeschreibungMy Four worlds is an inspiring story, which anyone seeking ways to overcome the hardships in life, should read. It tells you about the everyday human experiences of life that may be relevant to anyone, anywhere, and in different circumstances. It is about the life of a young man who has been battered by destiny, even to the point of resignation, as he suddenly became totally blind in his prime age of 23 years. But the young man did not give up; instead he fought gallantly to overcome the worst of all the odds in his life, turning disappointment into a blessing. This young man invites you to follow him through the journeys in the four worlds of his life, and learn how he superbly mastered the challenges he encountered in those worlds. In his childhood romances, you will be introduced to the landscape and the customs and traditions of his origin. In his world of denied opportunities, you will have insight in the slavery conditions and the hardships he had to bear. In his world of open opportunities, you will learn how he managed to catch up with his ambitions, how he found those opportunities hitherto denied him, grabbed them, and made the best of them to triumph. He invites you to accompany him in his meritorious services with the United Nations, and find out how he travelled around the globe, motivating the people of the world on how to overcome the challenges of physical and mental disabilities.
