Love itVon NguyenI bought this book and a phrase book but all the stuff I wanted to learn is in this one. Really impressed with the language bit, its REALLY hard to learn though so the pronunciation links are a lifesaver. Wasnt expecting that much detail and thought it was just going to be a general overview so Im pleased with it.0 von 0 Kunden fanden die folgende Rezension hilfreich. InterestingVon BernardA good work! This is the need for me to prepare for my trip to South East Asia, a very detail guide. I read many books which only introduce the greats of this country but not the real experience including negatives for my reference. Very useful to avoid being cheated and have a good trip.
