KundenrezensionenHilfreichste Kundenrezensionen3 von 3 Kunden fanden die folgende Rezension hilfreich. Great PerspectiveVon Andreas MarjoramThis book is straightforward and honest with us - what it takes to turn your photographic passion into a business. Clean statements without any romantic illusion, at the same time sharing stories and examples that allow the reader to better understand what is behind a successful business. This is good reading stuff. Nothing on photographic technique, but a lot on what is behind a photographic business.I personally like the stile of David - honest, direct, grounded. Five stars if you look for a book that may help you to decide if you want to become a pro (or not).1 von 1 Kunden fanden die folgende Rezension hilfreich. A photography book with a differenceVon Mike Le GrayI thoroughly enjoyed this book and regularly pick it back up for another browse through it.Rather than a how-to guide, this takes you on a journey to help you to connect with your creative vision and then

how to use it to take wonderful photographs. Highly recommended.

Kurzbeschreibung For those who want to make the transition into the world of vocational photography staying true to your craft and vision, while fusing that craft with commerce VisionMongers is a great place to begin your journey. With a voice equally realistic and encouraging, photographer David duChemin discusses the experiences he's had, the lessons he's learned, and the practices he's adopted in his own winding journey to becoming a successful working photographer. When it comes to this personal, honest combination of craft and commerce, there is no single path to success. Everyone's goals are different, as is everyone's definition of success. As such, VisionMongers does not prescribe a one-size-fits-all program. Instead, duChemin candidly shares ideas, wisdom, and inspiration to introduce you to, and help you navigate, the many aspects of transforming your passion into your vocation. He addresses everything from the anxiety-riddled question "Am I good enough?" to the basics and beyond of marketing, business, and finance, as well as the core assumption that your product is great and your craft is always improving. Along the way, duChemin features the stories of nine other photographers including Chase Jarvis, Gavin Gough, and Zack Arias whose paths, while unique, have all shared a commitment and passion for bringing their own vision to market. With VisionMongers, you'll learn what paths have been taken what has worked for these photographers and you'll be equipped to begin the process of forging your own.
