Von Bryan Burchers, Sam Burchers Jr., Sam Burchers III : Vocabulary Cartoons: Kids Learn a Word a Minute and Never Forget It. (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Vocabulary Cartoons: Kids Learn a Word a Minute and Never Forget It. (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. A Excellent ResourceVon Ein KundeThis book offers a much easier, funner, faster, and better way to learn and to

REMEMBER vocabulary than most other vocabulary books (including those by Kaplan, Princeton Review, *for Dummies, Arco, and Barrons). What makes this book an excellent buy is the unique method that is employed in teaching vocabulary: humorous CARTOONS that serve as visual mnemonics! You will rarely find this strategy utilized anywhere else! Verbal mnemonics for each word are also incorporated into the book. This ensures that you will not forget the words you've learned! The words used in this resource emphasize focus on attaining a better score on the verbal section of the SAT I. I have come across most of the 300 words in this book on sample SAT Is. I would recommend this title to those who would like to effectively increase their vocabulary in a short amount of time, especially to those with weak vocabularies. A sample word used in this book is "ubiquitous". The verbal mnemonic is "as big as us". The visual mnemonic is a cartoon that features two extremely heavyset people who claim: When you're "as big as us" you feel "ubiquitous". (Ubiquitous, by the way, refers to the quality of being everywhere at once.)

1 von 1 Kunden fanden die folgende Rezension hilfreich. **STUDENTS LEARN A WORD A MINUTE** Von Ein Kunde I have personally talked with other teachers who conducted research on the vocabulary cartoon books and the claims made by the authors are completely as represented. Memory aids of both visual and rhyming association mnemonics provide an entertaining and rapid way to learn and retain new words. If there is a better way to build vocabulary I have never found it in my eighteen years of teaching English. Samantha Ann Vogt 0 von 0 Kunden fanden die folgende Rezension hilfreich. My sixth graders want more! Von Lesia Canada English (lesiae@bulloch.com) This book is a goldmine if you are trying to teach vocabulary to middle schoolers. I tried the first set of ten words with my students and when we were finished they asked, "When are we going to do more?" I purchased the matching blackline masters from the company and turned them into "mini-posters" which are hung around my room. Many students (even the ones I don't teach!) enter my room and ask, "When are you going to put up more? We know all of these!" Keep in mind that I had at least 50 on the wall when this was asked! But the true kicker is when a student viewed "The hamper scampered to the finish line" and said, "Wow, He's throwing out all his clothes!" A must-have for many laughs during learning!

Kurzbeschreibung No longer do students have to try to memorize long boring vocabulary lists by using archaic rote memory techniques. Vocabulary Cartoons makes learning vocabulary fun and easy by using brain-friendly memory aids in the form of visual and rhyming mnemonics. A mnemonic is a device used to improve memory. It helps you remember something by associating it with something you already know. Mnemonic devices have been used in many forms including keywords, acronyms, rhymes, poems, songs and visual aids. For example, you may remember this mnemonic from grade school, "Columbus sailed the ocean blue in fourteen hundred ninety-two." This helps you remember when Christopher Columbus discovered America. Vocabulary Cartoons incorporates a visual and rhyming mnemonic for every vocabulary word. Students learned 72% more words with 90% retention in actual school tests. This book is a must for visual learners, ADD, ESE and all grammar school students. Excellent teaching resource for improving standardized test scores like the common core. This book contains 210 words with 21 matching and fill-in-the-blank review quizzes. Recommended for 3rd - 6th grade students.
