Von Ed Stafford : Walking the Amazon: 860 Days. The Impossible Task. The Incredible Journey before purchasing it in order to gage whether or not it would be worth my time, and all praised Walking the Amazon: 860 Days. The Impossible Task. The Incredible Journey:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Super

Typ! Von Felix Ich bin absoluter Ed Stafford Fan. Ich liebe seine Serien wie naked and marooned etc. Deshalb wollte ich mir dieses Buch zulegen. Es ist super geschrieben und wirklich interessant. Nicht ganz im Stile seiner Serien, wenn man das überhaupt miteinander vergleichen kann. Aber auf jeden Fall eine super interessante Abenteuergeschichte. Einziges Manko für mich: Ich kann zwar ganz gut Englisch (ca. B2 Niveau) aber ich hatte teilweise etwas Probleme das Buch flüssig zu lesen, da es in meinen Augen in einem recht Anspruchsvollen Englisch geschrieben ist. Gerade Atmosphärische Wörter habe ich nicht gelesen und an denen hab ich mich eben manchmal aufgeht. P.S. wenn Ihnen meine Rezension gefallen hat wre ich ber ein kurzes Feedback, ob es hilfreich war, sehr dankbar :) 0 von 0 Kunden fanden die folgende Rezension hilfreich. I was addicted to this book. A must read Von Sara Very well written and much more in depth than the documentary. It comes across as very genuine writing, as during the most difficult times of the walk Ed Stafford wrote satirical and cynical prose, which made him look back at it with humour. After reading the book I was addicted to googling him and watching everything he had filmed during and after the walk. The colour pictures are beautiful. Having spent some time in the myself I was wondering how realistic he would portray the beauty and perils of it. His honest writing regarding his inevitable ailments, needing diazepam to sleep through the mosquitoes and his long bout of depression beaten by the power of the mind and concentrating on the beauty, makes this a very personal and lovely account of his experience. 4 von 6 Kunden fanden die folgende Rezension hilfreich. Great book Von Mitch 1 1 1 I honestly don't understand why someone is simply complaining about the quality of the book (how it is made) without saying any word about the content. I bought the book with the hard cover and there are absolutely not complaints to make. In regards to the content: Ed Stafford has great character and I very much admire the way how he managed his trip along the despite all the difficulties. The book is amazing and a "must read" for all guys who like adventures!

Kurzbeschreibung In April 2008, Ed Stafford began his attempt to become the first man ever to walk the entire length of the River . Nearly two and a half years later, he had crossed the whole of South America to reach the mouth of the colossal river. With danger a constant companion - outwitting alligators, jaguars, pit vipers and electric eels, not to mention overcoming the hurdles of injuries and relentless tropical storms - Ed's journey demanded extreme physical and mental strength. Often warned by natives that he would die, Ed even found himself pursued by machete-wielding tribesmen and detained for murder. However, Ed's journey was an adventure with a purpose: to help raise people's awareness of environmental issues. Ed had unprecedented access to indigenous communities and witnessed the devastating effects of the deforestation of the rainforest first-hand. His story of disappearing tribes and loss of habitats concerns us all. Ultimately though, Walking the is an account of a world-first expedition that takes readers on the most daring journey along the world's greatest river and through the most bio-diverse habitat on earth. Pressestimmen "One of the boldest modern-day adventures ever taken." Bear Grylls, host of Discovery Channel's Man Vs. Wild [Walking the] stands elbow-to-elbow with adventure classics from Thesiger to Krakauer. Mark Adams, author of Turn Right at Machu Picchu "All generations need heroes; it's lovely to have a real one for a change." The Times (London) Totally, completely and utterly mad. Michael Palin, author and actor "Vicariously joining this 860-day trek through extremely inhospitable terrain made all the more challenging by hostile tribes, lethal animals, food scarcities, and extreme weather has made for an exhilarating adventure." National Geographic Werbetext 'Walking from the Pacific, over the Andes and along the entire length of the to the Atlantic is truly extraordinary ... To do all this puts Stafford's endeavour in the top league of expeditions past and present' - Sir Ranulph Fiennes OBE
