A great way to know how to be God's child in this societyVon Ein KundeI read this in one hour, avidly, soaking in the words on each page. I recommend it highly to everyone who wants to know how to be like God, to live according to His law, how to behave with each other in loving ways. Its also a description of Who God is, how much He loves His children and what we as His children must be to earn eternal life. I'm actually buying more than one to give as presents to friends, relatives. This book was based on St. Thomas Aquinas' writings, according to the preface. And even though it can be read in one hour, I intend to reread all parts as a kind of blueprint for what parts of my self, my life, need

reviewing so that perhaps more understanding of GOD's plan, His Will, is at work in my life.
